

Welcome!

*“ We will always treat
you the way we like to be
treated ourselves! ”*

Treatments

1. Acupuncture

Acupuncture is a form of alternative medicine and a key component of traditional Chinese medicine (TCM) in which thin needles are inserted into the body. There is a range of acupuncture variants which originated in different philosophies, and techniques vary depending on the country in which it is performed. It is most often used to attempt pain relief, though it is also recommended by acupuncturists for a wide range of other conditions. Acupuncture is safe when done by appropriately trained practitioners using clean needle technique and single-use needles.

2. Moxibustion

3. Cupping

4. ► Massages

FREE Diagnosis and Treatment Recommendations!

Each treatment has its purpose, and we recommend them with the best intentions in mind. Hence, upon insistence against our recommendations as professionals in regards to the method of treatment, we may choose not make ourselves responsible for any possible consequences or refuse to provide treatment all together.
